Helpful Hints

Here are some useful ideas to help you wrestle with the mysteries of our faith.

- 1) Do a bible search on the topic that you are trying to learn about. As you find passages ask the Holy Spirit to help you understand what they are saying. Also using a good commentary can help as bible commentaries help explain what passages mean.
- 2) For 2000 years the church has been wrestling with the mysteries in our faith. It can be helpful to read some older books on the subject that you are struggling with, or get a good theology dictionary.
- 3) Keep a humble heart before God, recognising that He will not be put in a box and He cannot be fully understood. It is very important that we try to understand our faith, but we do so with a humble heart.
