

It's Your Life!

ACTIVITY SHEET 2

Testimony means story of faith. People can argue over things in the Bible, like Adam and Eve, or the creation story, but they cannot take away your story of how Jesus has changed your life. One of the ways of helping you share your faith with others is to be clear in your own mind what influenced you in your decision to become a Christian. Here are 3 questions to help you clearly share your story of faith with another.

Before I became a Christian:-

Talk a little about what you were like before you became a Christian. Share any life experiences that you think people should know. Talk about what, if anything, did you feel about God or the church.

Explain what got you thinking about Christianity. Whether a friend, a book etc. Talk about how you became a Christian, what did you do?

Talk about how God is changing you now. How is your life different? Have your expectations of life changed?. What do you feel about God now and what He has done in your life through Jesus? Share with people why you are getting baptised!
